

Supportive Services for Cancer Care

Directory and a Guide for Self-Empowerment

When cancer enters your life unexpectedly, it feels like it changes everything. It takes a grip over your life. However, your life is so much more than cancer. We want to provide as much support and services as we can to help you achieve health, strength, happiness, and peace.

This directory contains all oncology supportive services offered at UI Health. It has been designed as a self-empowerment tool for you. There is a short description of each service listed under “concern type”. If any concern type applies to you that has not been addressed yet, please discuss this with your primary care physician or oncologist.
